Press Release
Danantara Strengthens Global Expansion, GMF and Oman Air Inaugurate Oman GMF Technic Facility

Muscat, November 11th 2026 — Danantara, through PT Garuda Maintenance Facility Aero Asia Tbk (GMF), a subsidiary of Garuda Indonesia Group, in partnership with Oman Air, officially inaugurated the Oman GMF Technic aircraft maintenance facility at Muscat International Airport in Muscat, the Sultanate of Oman, on (11/10). The inauguration marks a strategic milestone for both companies in expanding their Maintenance, Repair, and Overhaul (MRO) capabilities and strengthening their presence across the Middle East. The ceremony was attended by the Minister of Finance of the Sultanate of Oman, Sultan bin Salim bin Said Al Habsi; the Minister of Transport, Communications and Information Technology of the Sultanate of Oman, H.E. Eng. Said bin Hamoud Al Maawali; and the Minister of Commerce, Industry and Investment Promotion of the Sultanate of Oman, Anwar bin Hilal bin Hamdoun Al-Jabri. Also in attendance were Garuda Indonesia Commissioner, Chairal Tanjung, and President Director of Garuda Indonesia, Thomas Sugiarto Oentoro.

Oman GMF Technic is a joint venture (JV) between GMF and Oman Air, established as part of GMF's strategy to expand its international footprint, particularly across the Middle East and North Africa (MENA), where the aviation industry presents significant growth opportunities and demand for MRO services continues to rise.

GMF CEO, Andi Fahrurrozi, stated, “Through our partnership with Oman Air, we aim to unlock broader business opportunities while bringing Indonesia's aircraft maintenance expertise and capabilities to the international market. GMF's presence in Oman also provides valuable opportunities for our people to gain international exposure, broaden their experience, and further develop their competencies through direct involvement in the global MRO ecosystem. We are confident that this expansion will strengthen GMF's international competitiveness, create greater value for the aviation industries of both countries, and contribute further to Indonesia's national economy through service exports.”

At the same time, Nasser Al Sharji, Chief Executive Officer of Oman Air, said, “This is an extremely proud moment for the aviation sector in Oman. With GMF AeroAsia as our partner and a new state-of-the-art facility, we have an opportunity to create a truly world-class MRO operation in the Sultanate. We also want this to be a place where our people have an excellent

environment in which to work, develop and build their careers. Our ambition is to serve our local airlines while attracting aircraft and aviation business from across the region and beyond, creating new opportunities and increasing the contribution our aviation sector makes to the national economy."

About Oman GMF Technic

As a joint venture between GMF and Oman Air, Oman GMF Technic has secured a 20-year concession from the Civil Aviation Authority (CAA) of the Sultanate of Oman to operate an MRO facility at Muscat International Airport. The concession provides a long-term foundation for the company's operations and business development, with capabilities spanning Line Maintenance and Airframe Maintenance, supported by dedicated workshops for narrow-body aircraft such as the Boeing 737-8/9, Airbus A320 and wide-body aircraft such as the Boeing 787.

Spanning a total area of 3.85 hectares, the integrated facility comprises two hangars with the capacity to accommodate up to two wide-body aircraft up to Airbus A380 and four narrow-body aircraft simultaneously. It is equipped with state-of-the-art infrastructure, including an adjustable docking system, an automated warehousing system, and engine ground run-up facilities.

In addition to its certification from CAA Oman, Oman GMF Technic is targeting further approvals from the Federal Aviation Administration (FAA), the European Union Aviation Safety Agency (EASA), and other aviation authorities. These certifications are expected to expand the company's customer base across regional and international markets.

Through the end of 2026, Oman GMF Technic will focus on completing operational preparations and securing the necessary resources to commence full-scale services in January 2027.

"GMF's expansion into the Middle East marks a significant milestone for both the company and Indonesia's MRO industry. This achievement reflects the dedication and expertise of Indonesian engineers who have built GMF's capabilities over more than 76 years. This expansion brings us closer to our vision of becoming the world's Most Valuable MRO Company, delivering meaningful contributions not only to Indonesia but also to the global aviation ecosystem," Andi concluded.

About GMF

PT Garuda Maintenance Facility Aero Asia Tbk (GMF) is a company engaged in aircraft repair, maintenance, and overhaul, as well as the provision of industrial services. As Indonesia's largest MRO company, GMF has 77 years of experience in the aviation industry. GMF was initially established as the Technical Division of PT Garuda Indonesia (Persero) Tbk, located at Soekarno-Hatta International Airport. GMF has served more than 190 customers across more than 70 countries worldwide. In conducting its business activities, GMF has obtained certifications from aviation authorities in more than 30 countries, including the FAA (United States), EASA (Europe), and DGCA (Indonesia). In 2017, GMF became a publicly listed company on the Indonesia Stock Exchange under the ticker code GMFI. Today, GMF is expanding its business into the power services, defense, and aerostructure sectors. Through these initiatives, GMF aims to realize its vision of becoming the most valuable MRO company by providing integrated and reliable maintenance solutions as a contribution to the nation.

About Oman Air

Oman Air (WY), a member of the oneworld Alliance, began operations in 1993. Initially founded to serve important domestic routes, it has since undergone rapid growth and is today recognised as a major international carrier connecting cities around the world to Oman's stunning nature, rich heritage and welcoming culture.

The award-winning airline has been instrumental in transforming Muscat into one of the Middle East's most desirable travel destinations, while supporting adjacent commercial, industrial and tourism activities. With a young and modern fleet including, among others, fuel-efficient Boeing 737 and 787 Dreamliner aircraft, which feature luxuriously appointed interiors, Oman Air is renowned for its exceptional products and services, both in the air and on the ground, and for the signature Omani hospitality it offers to every guest throughout their journey.
