

Press Release
**GMF and Pelita Air Sign Strategic Partnership for Aircraft
Maintenance at Pondok Cabe Hangar**

Tangerang, October 10th, 2025 - PT Garuda Maintenance Facility Aero Asia Tbk (GMF) and PT Pelita Air Service (Pelita Air) have signed a Memorandum of Understanding (MoU) to explore cooperation in aircraft maintenance, repair, and overhaul (MRO). Held on Friday (10/10) at Pondok Cabe Airport, this strategic partnership was signed by GMF CEO, Andi Fahrurrozi, and Pelita Air CEO, Dendy Kurniawan.

As a symbolic gesture to mark the beginning of this partnership, the signing ceremony was followed by a ribbon-cutting event at Pelita Air's hangar area, signifying the commencement of collaboration in utilizing the facility for aircraft maintenance activities. This moment officially marked the synergy between both parties in strengthening the national aviation ecosystem.

Through this MoU, GMF has the opportunity to expand its capacity and capabilities in aircraft maintenance services, which are not only centered at its main facility in Cengkareng but also extend to Pelita Air's hangars and those of its subsidiaries. This collaboration enables GMF to perform maintenance on ATR aircraft and Bell 412 helicopters, reinforcing GMF's position in broadening its business portfolio in the rotary-wing segment.

GMF CEO, Andi Fahrurrozi, stated that the MoU serves as an initial step toward expanding strategic collaboration and fostering synergy among state-owned enterprises (SOEs) in the aviation sector. "This partnership strengthens the position of both companies as key players in the aviation ecosystem. Through this collaboration, GMF and Pelita Air can complement each other's capabilities and expand business opportunities, particularly in developing MRO services across various segments," said Andi.

Pelita Air CEO, Dendy Kurniawan, added that this strategic partnership reflects the spirit of synergy among aviation SOEs in strengthening the integration of Indonesia's national aviation ecosystem and optimizing available resources.

“Through this collaboration, we aim to deliver added value to the national aviation industry by prioritizing efficiency, reliability, and sustainability. We believe that strong collaboration among aviation SOEs will serve as a solid foundation for enhancing the competitiveness and independence of Indonesia’s aviation industry,” said Dendy.

This partnership marks a significant step by GMF and Pelita Air in expanding their aircraft maintenance services to better meet customer needs, while strengthening their joint contribution to Indonesia’s aviation industry's future.

About GMF

PT Garuda Maintenance Facility Aero Asia Tbk (GMF) is a company engaged in the provision of industrial services, as well as the repair, maintenance, and overhaul of aircraft. As the largest aircraft MRO (Maintenance, Repair, and Overhaul) company in Indonesia with over 70 years of experience, GMF initially started as a division of PT Garuda Indonesia (Persero) Tbk, located at Soekarno Hatta International Airport. GMF has served more than 190 customers across more than 60 countries. In carrying out its business activities, GMF has been recognized by aviation authorities around the world with certifications from more than 25 countries, including the FAA (United States), EASA (Europe), and DGCA (Indonesia). In 2017, GMF officially became a publicly traded company by offering its shares to the public under the ticker code GMFI. Currently, GMF is expanding its operations to enter the power services and defense industries segments. As a result, GMF is expected to realize its vision of becoming the most valuable MRO company through its mission of providing integrated and reliable maintenance solutions as a contribution to the nation and the state.
