

Press Release

GMF Completed 3 Garuda Indonesia Aircraft and 15 Citilink Aircraft, Special Livery Aircraft Becomes the Latest

Tangerang, February 13th 2026 — PT Garuda Maintenance Facility Aero Asia Tbk (GMF) demonstrating its capabilities as a key player in the maintenance, repair, and overhaul (MRO) industry by completing the reactivation projects of Garuda Indonesia and Citilink airlines. This project is part of the Garuda Indonesia Group's synergy in supporting the improvement of the national airline's operational readiness. As of February 13th, 2026, GMF has successfully restored the operational status of three Garuda Indonesia aircraft and 15 Citilink aircraft.

In the Garuda Indonesia aircraft reactivation project, GMF successfully completed the reactivation of three Airbus A330 airframes with registrations PK-GHE, PK-GHF, and PK-GHI, two engine performance restoration projects, eight High Pressure Turbine (HPT) blade replacements, and four landing gear overhaul. The completion of the Garuda Indonesia reactivation project demonstrated a high level of punctuality, with the majority of key milestones achieved on time.

Meanwhile, in Citilink's reactivation project, GMF successfully completed the reactivation of 15 Airbus A320 aircraft, one engine overhaul, one engine repair, six auxiliary power unit (APU) overhauls, and one landing gear overhaul. All aircraft underwent C05 + 6 Year + 12 Year Inspection with 100% completion in accordance with the total Turn Around Time (TAT) agreed upon with Citilink. In the airframe reactivation work, two aircraft underwent special livery painting on registrations PK - GLL and PK - GLY, with PK - GLY being the most recently completed.

In 2026, GMF is committed to continuing the Garuda Indonesia Group reactivation project. A number of Garuda Indonesia reactivation jobs have been planned, including five Garuda Indonesia Airbus A330 aircraft, 10 engine maintenance jobs, 2 APU overhaul jobs, and one landing gear overhaul job. Then, for the Citilink airline reactivation project, 20 aircraft will be reactivated, consisting of six ATR72-600 aircraft and 14 Airbus A320 aircraft, 12 engine overhaul jobs, and six APU overhaul jobs. All evaluations of the reactivation project implementation in 2025 will form the basis for improving Turn Around Time (TAT), strengthening risk management, and controlling Cost of Poor Quality (COPQ) through various continuous improvement initiatives carried out by GMF.

GMF CEO, Andi Fahrurrozi, said that the success of the reactivation project in 2025 to early 2026 is proof of GMF's capability and resilience in supporting the operational readiness of national airlines. "The reactivation of these aircraft is not merely the completion of a project,

but part of GMF's commitment to contribute to the country through its full support for the operational readiness of the Garuda Indonesia and Citilink fleets. GMF ensures that every aircraft that returns to service meets airworthiness standards, so that it can provide the best service to the public and strengthen both domestic and international connectivity," said Andi.

About GMF

PT Garuda Maintenance Facility Aero Asia Tbk (GMF) is a company engaged in the provision of industrial services, as well as the repair, maintenance, and overhaul of aircraft. As the largest aircraft MRO (Maintenance, Repair, and Overhaul) company in Indonesia with over 76 years of experience, GMF initially started as a division of PT Garuda Indonesia (Persero) Tbk, located at Soekarno Hatta International Airport. GMF has served more than 190 customers across 70 countries. In carrying out its business activities, GMF has been recognized by aviation authorities around the world with certifications from 30 countries, including the FAA (United States), EASA (Europe), and DGCA (Indonesia). In 2017, GMF officially became a publicly traded company by offering its shares to the public under the ticker code GMFI. Currently, GMF is expanding its operations to enter the power services and defense industries segments. As a result, GMF is expected to realize its vision of becoming the most valuable MRO company through its mission of providing integrated and reliable maintenance solutions as a contribution to the nation and the state.
